Antoine Bourel et H  lo  se Levieux

H  lo  se Levieux, upholsterer by trade, designer of textile objects & **Antoine Bourel**, wool fleece maker, attracted by the simple & well made things, have joined-venture to create lines of home decorations

In their studio in **Morbihan**, hers & his craftmanship get together to create one of a kind pieces in **wool fleece**.

Refined et graphic like, the **traditional japanese fabric** fascinates by its ancestral history, its neatness, its elegance.

Their love of sharing brings them into two designers' world. **Soizic Gilibert** and **Florence Bourel** create designs inspired from the nature that surrounds them both. Thus the collection « **impressions fran  aises** » is born.

For our leather work, we called in **Manon Pansart** from the DeMerode studio. She hand picks her leather in France.

« Our desire to propose a **made in France** product takes us to work in collaboration with two ESAT shops, (National Rehabilitation Centers for Persons with Disabilities).

These two shops take care of the production of the « japanese theme » and the « impressions fran  aises »

We are also proud to work with local suppliers for all our hardware which is also **made in France**.

Japanese Theme

« Coup de coeur » for the classic japanese fabric that takes us towards indigo horizons & silky sunsets »

Impressions françaises

« A collection inspired from mother nature which takes us traveling along the french country site. »

Each design represents a small french village,

- La Barben for its Bay Laurel
- Beville le comte, the wheat plains of the Beauce region
- Lauris capitol of the poppy flower
- Saint Paul en forêt, the village where the « dame-jeanne » was created.
